- P. Player trades will now take place to allow the manager or coach's child to now be on their team.
1. If a Manager or coach's child has not been placed by Commissioner in the first 6 round positions, then that child must be taken by manager in rounds 7 and/or 8.

 3. When brothers/sisters request assignment to the same team, they will be given draft positions to be decided by the League Commissioner. If the player with the lower draft number is chosen first, the second player will be drafted by his assigned draft position. When the player with the higher draft number is chosen first, the second player will be the team's next draft choice. Example: round 1 is "lower" than round four.

10.09 PITCHING RULES

A. [Intent]:

1. In an attempt to protect young arms as well as maintain a relative level of competition the GEYBA has adopted the following rules, regulations and guidelines with respect to the use of pitchers. This section provides managers with the specific rules, and also guidelines to help insure the proper development of young arms.

B. Manager Guidelines:

1. Please use common sense!
2. The number of pitches thrown is more important than the number of outs or innings pitched. Remember that a pitcher is also throwing pitches during warm-ups.
3. Pitcher should be limited in appearances per week to allow proper rest between games pitched.
4. Improper techniques are a major factor in injury.
5. Players need to learn their own bodies. Coaches and parents need to understand that safety is always the overriding factor.
6. When it comes to a pitchers arm, no one game is that important!
7. If a pitcher has thrown a lot of pitches in a game, please allow extra rest between games pitched.
8. When symptoms of arm discomfort or fatigue arise, longer periods of rest are recommended.

C. Calendar Week:

1. Begins at 12:01 AM Monday runs through MIDNIGHT Sunday.

D. Innings Pitched:

1. Innings shall be tallied based on one (1) out equaling one-third ($1/3^{\text{rd}}$) of an inning.
2. A double or triple play that occurs while a pitcher has only one-third ($1/3^{\text{rd}}$) of an inning eligibility remaining will count only as one-third ($1/3^{\text{rd}}$) of an inning.

E. Forty (40) Hour Rest:

1. GEYBA will maintain a ZERO TOLERANCE policy regarding the abuse of this rule throughout the entire season.
 - a. NO adaptations during playoffs shall be allowed to the 40-hour rest rule.
2. PLAYER must have forty (40) hours of rest before pitching again:
 - a. After pitching FOUR (4) or more innings during the same calendar day.
 - b. After pitching a total of SEVEN (7) innings on two (2) consecutive days. (Pitcher can pitch up to THREE (3) innings in game one and still pitch FOUR (4) innings in game two.)
 - c. After pitching a total of SEVEN (7) innings on three (3) consecutive days. (Pitcher can pitch any combinations up to THREE (3) innings in games one and two and still pitch FOUR (4) innings in game three.)
3. The forty (40) hour rest rule is computed from the scheduled starting time of the game in which the pitcher completed last allowed inning pitched before 40 hour rest rule becomes applicable (based on scenarios set forth in 10.09.E.2)
 - a. In games that begin more than two (2) hours after the schedule starting time, the actual starting time of the game will be used in the interpretation of the rule.

F. Pitcher Eligibility:

1. In the event of a question of eligibility of a pitcher where the question involves the number of innings pitched in a week or the length of rest between pitching assignments, the record of the team in question regarding pitching eligibility shall be the basis of settlement (*refer to Section - .07-C*). The League Commissioner will settle any further dispute. His decision shall be final and cannot be used as the basis for a protest or an appeal.
2. Innings pitched in makeup games and the continuation of suspended games count against the pitcher's eligibility for the current week.
3. A pitcher who is withdrawn from the mound, but who stays in the game in another position, is not permitted to return to the mound as a pitcher in the same game.
4. The withdrawal of an ineligible pitcher after being announced, but before having pitched, shall not be considered a violation of the playing rules.

G. Rule Violations:

1. Violation of any of these pitching rules renders ineligible the pitcher involved, for the game in which the violation occurred. See *Section - .12* for the consequences applied to the offending manager.
2. League officials and opposing managers are urged to take precautions to prevent protests. When a protest situation is imminent, the potential offender should be notified immediately.

H. League Specific Parameters:

1. No pitcher shall pitch in more than **ten (10) innings** in one (1) calendar week.
2. No pitcher shall pitch in more than **seven (7) innings** in one (1) day.
3. No pitcher shall pitch in more than one (1) game on the same calendar day, unless the games are back to back and the pitcher completes the first game and starts the second game. All other pitching rules apply.
4. A second trip to visit the same pitcher by a manager or coach in the same inning will cause that pitcher's automatic removal.

- a. The only exception to this rule is in the case of injury or if the opposing team or manager calls time.

I. Playoff Pitching Rules:

1. The Commissioner, with input from the managers, shall establish the pitching rules for the League playoffs.
 - a. These rules shall be published no later than two weeks before the playoffs commence.
2. In establishing the playoff pitching rules, the Commissioner shall keep the following principles as the primary considerations.
 - a. First and foremost, all pitching rules are put in place to provide a safe playing environment and to protect the arms of the pitchers.
 - b. Secondly, these playoff rules are to ensure that the playoffs are as competitive as possible.
3. Given these principles, in setting the playoff pitching rules the Commissioner shall determine:
 - a. Number of innings a pitcher can pitch in a game.
 - b. Number of innings a pitcher can pitch in a day (given the possibility of multiple games in one day).
 - c. Number of innings a pitcher can pitch in a week.
 - d. Number of consecutive days on which a pitcher can pitch.
4. It should be stressed that the 40 Hour Rule, as set forth in the General Playing Rules section 1.15-E, shall remain in effect during all playoffs.
5. The Commissioner shall specify:
 - a. What constitutes a week during the playoffs? In general, the beginning of the playoffs will start a new "pitching week", while the Championship game(s) will likewise begin a new "pitching week".
6. In applying these playoff-pitching rules, the managers are urged to remember that the key to protecting young arms is to remain cognizant of the *number of pitches a pitcher throws* rather than focusing only on the number of innings pitched.
7. Finally, the Commissioner retains full discretion to alter all playoff rules to accommodate scheduling changes caused by inclement weather or other unforeseen occurrences.

10.10 RULES GOVERNING PLAY, OFFICIAL COMPLETION OF GAMES

- A. Games shall be of **seven (7)** innings duration.

- C.** There is no “must slide” rule. This is a judgment call, where the umpires may call out any runner who creates a safety hazard when approaching a base.
1. Casual, or incidental, contact is not an automatic out. The easiest way to avoid a problem is to always slide to avoid contact.
- D.** Balk rules, dropped third strikes and leadoffs are in effect in this league.
- E.** Fake tags are not permitted
1. First occurrence will result in warning to the fielder and the runner will remain on the base he/she occupied when the fake tag was attempted. Second occurrence will result in ejection of the fielder and the runner will remain on the base he/she occupied when the fake tag was attempted.
 2. Intent is to enhance safety.
- F. Completion of games**
